

Dear parents,

Hope you and your family are safe and healthy in these tumultuous times. As you are aware, we are in the middle of the pandemic caused by the outbreak of Corona virus.

In view of the non usage of transport during the lockdown period we have decided to reduce the Bus fees by the amount equal to non consumption of fuel for the months of April and May, 2020. This works out to 30% of the bus fees.

I am confident that you will appreciate the fact that apart from Diesel (Fuel) we need to continue to compulsorily pay salaries to the drivers/ helpers/ Escorts and all other statutory commitments like insurance/ taxes/ PF/ ESI etc. We have not factored in the cost involved in remobilising the fleet in terms of discharged and ruined batteries, deflated tyres and soiled interiors.

As for June, I think we should wait and take a call depending on the situation then. Hopefully things will return to normal by then.

I do hope this will ease the strain of fee payment in these trying times. In case you have already paid the full fees just drop in an application once school reopens and we will be happy to adjust the excess payment in the later months.

As you are all aware we did not increase our transportation fees last session and hence the enhancement was due this year. However keeping in mind the current situation which has strained the limits of each one of us we will keep the fees structure unchanged for this session too. Hence, please follow the Bus fee structure of the previous session (2019-2020).

Transport Team
